

Business Teaser

Cranp – Kovo spol. s r. o.

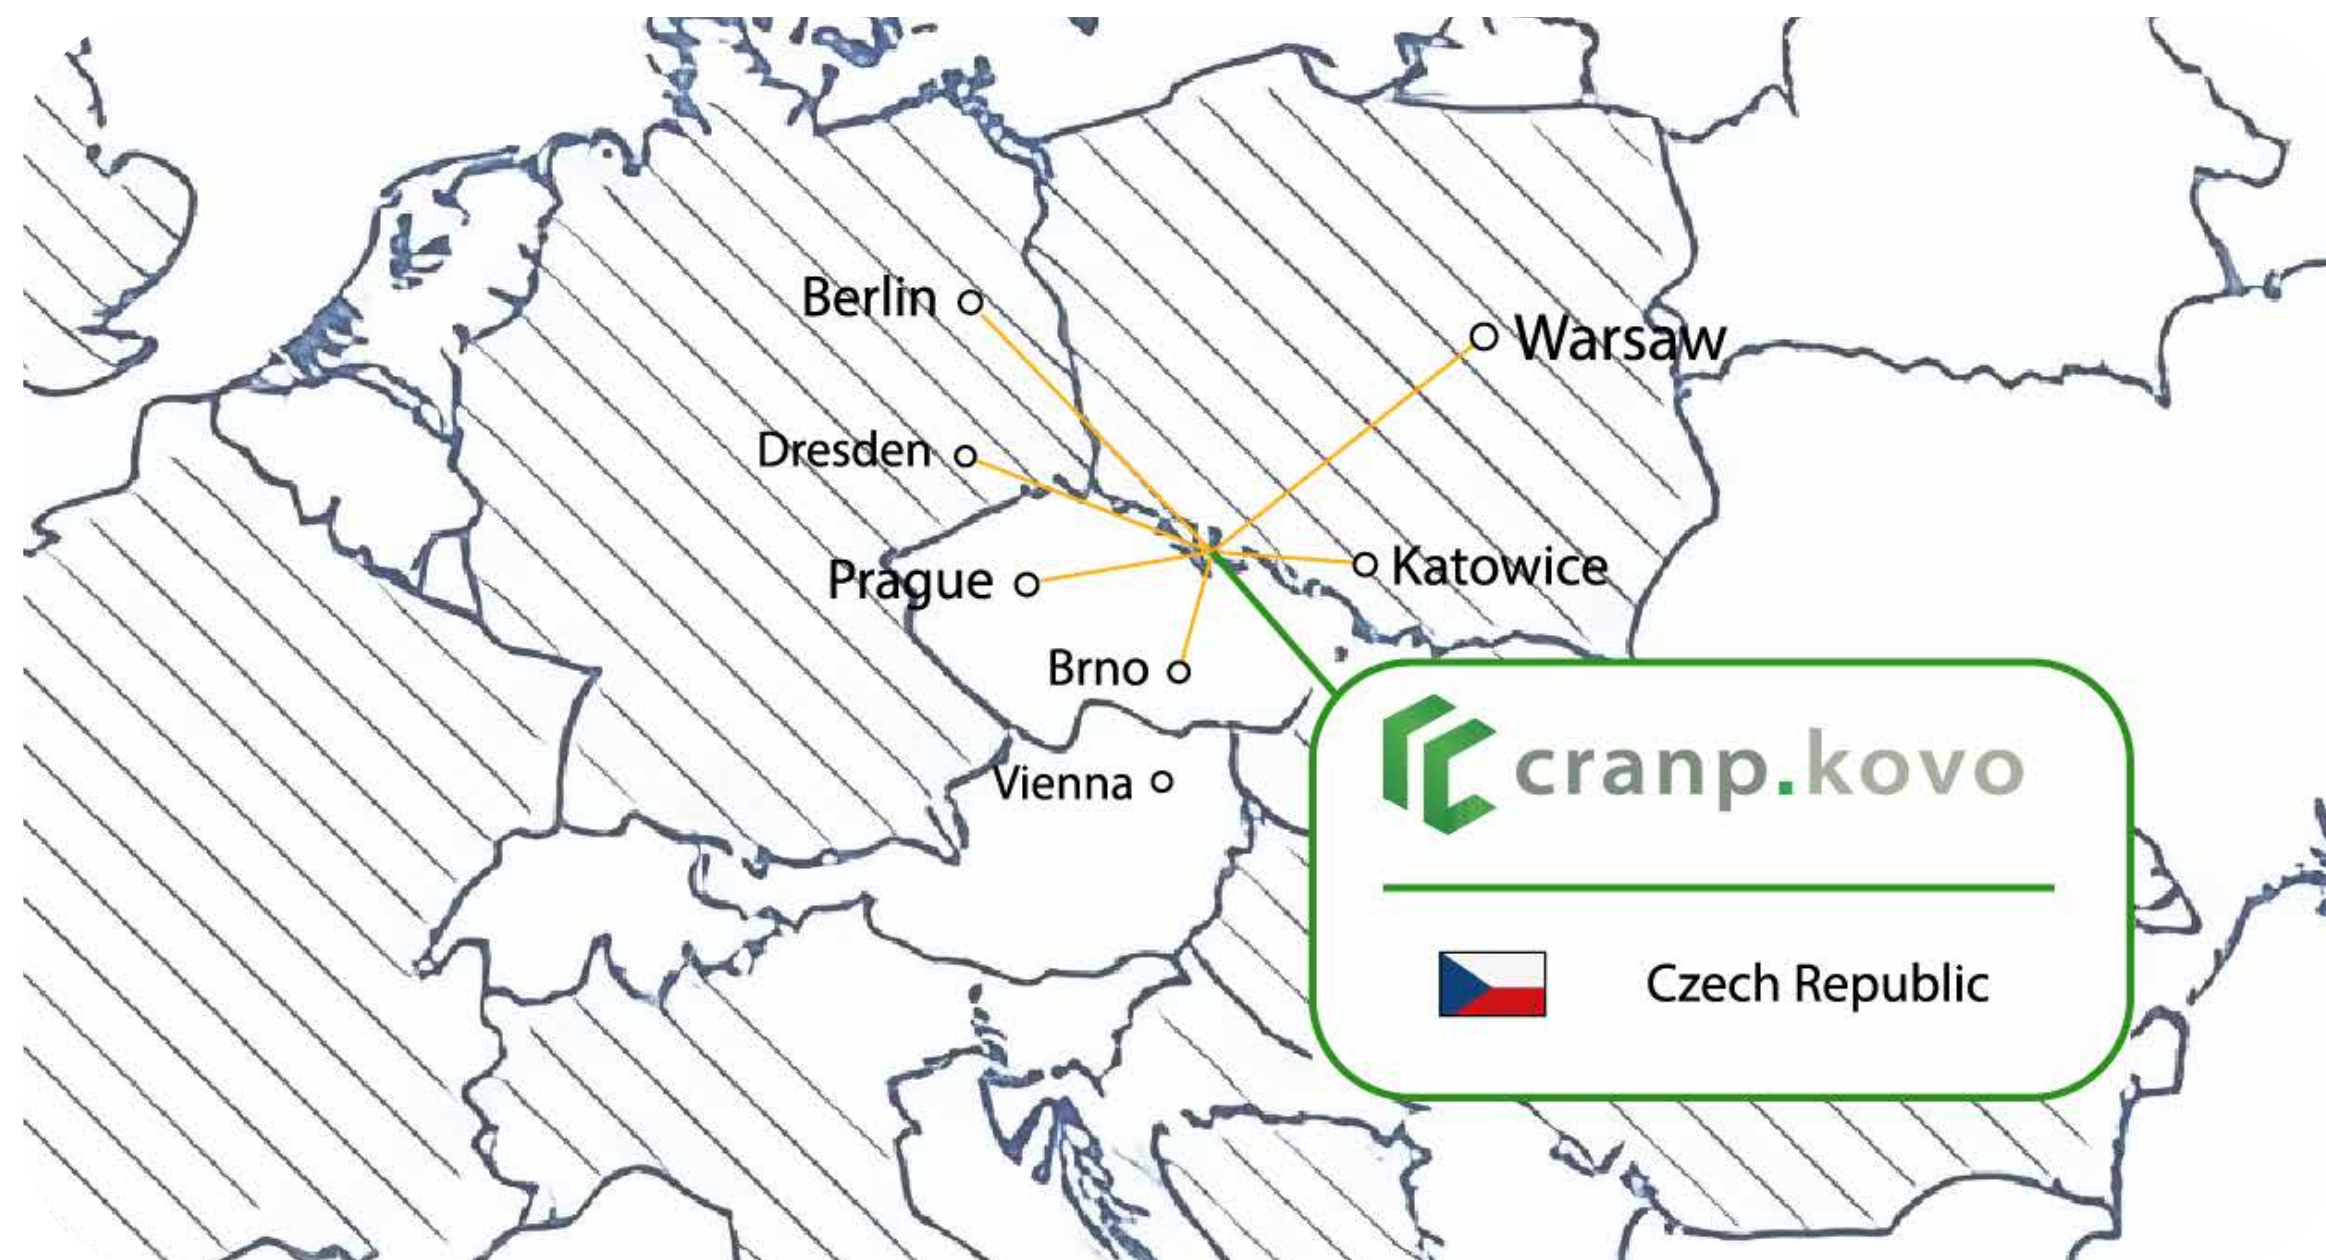

A company with over 20 years of experience
in manufacturing and industrial engineering.

Cranp – Kovo

spol. s r. o.

Industry:

boiler production,
metal processing

Headquarters:

Míru 371, 790 70
Javorník u Jeseníku

Data:

NIP: 26840014
www.cranp-kovo.cz

The current owner of Cranp Kovo spol s r.o. decided to look for an investor interested in purchasing 100% of the shares in the company.

The planned transaction includes an interesting, extensive operating property owned by the Company. Detailed information about the property is available later in this document.

**100%**Shares in the
Company**21**Years of
experience**CZK**Company location
Czech Republic

Address: Míru 371, 790 70 Javorník

Cadastral territory: Javorník - city

LV number: 183

Property purpose: operational property, partially used for production, handling area, access road

Plots:

9x built-up area and courtyard: **8,000 m²**

5x other areas: **34,000 m²** (5x jiná plocha)

1x permanent grassland: **918 m²**

The company's extensive operational area offers rich opportunities for future development.

Distance from Cranp Kovo:

Katowice - 194km

Brno - 200km

Prague - 230km

Cracow - 269km

Berlin - 391km

Dresden - 316km

Vienna - 333km

Warsaw - 453km

Built-up area:

8000 m²

Other areas:

34000 m²

Grassland:

918 m²

Current activities

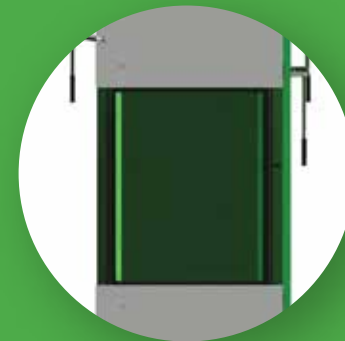

Wood-burning boilers

Modern boilers powered by solid fuel in the form of wood. Burning wood in the company's boilers generates minimal amounts of harmful substances such as NO_x and CO. The amount of dust and ash is approximately 1% of the volume of the burned wood.

Pellet boilers

Wood pellet boilers are a response to increasingly stringent emission and boiler safety standards. Pellets are a fuel produced from biomass (primarily sawdust) with high combustion efficiency and low carbon dioxide emissions during production.

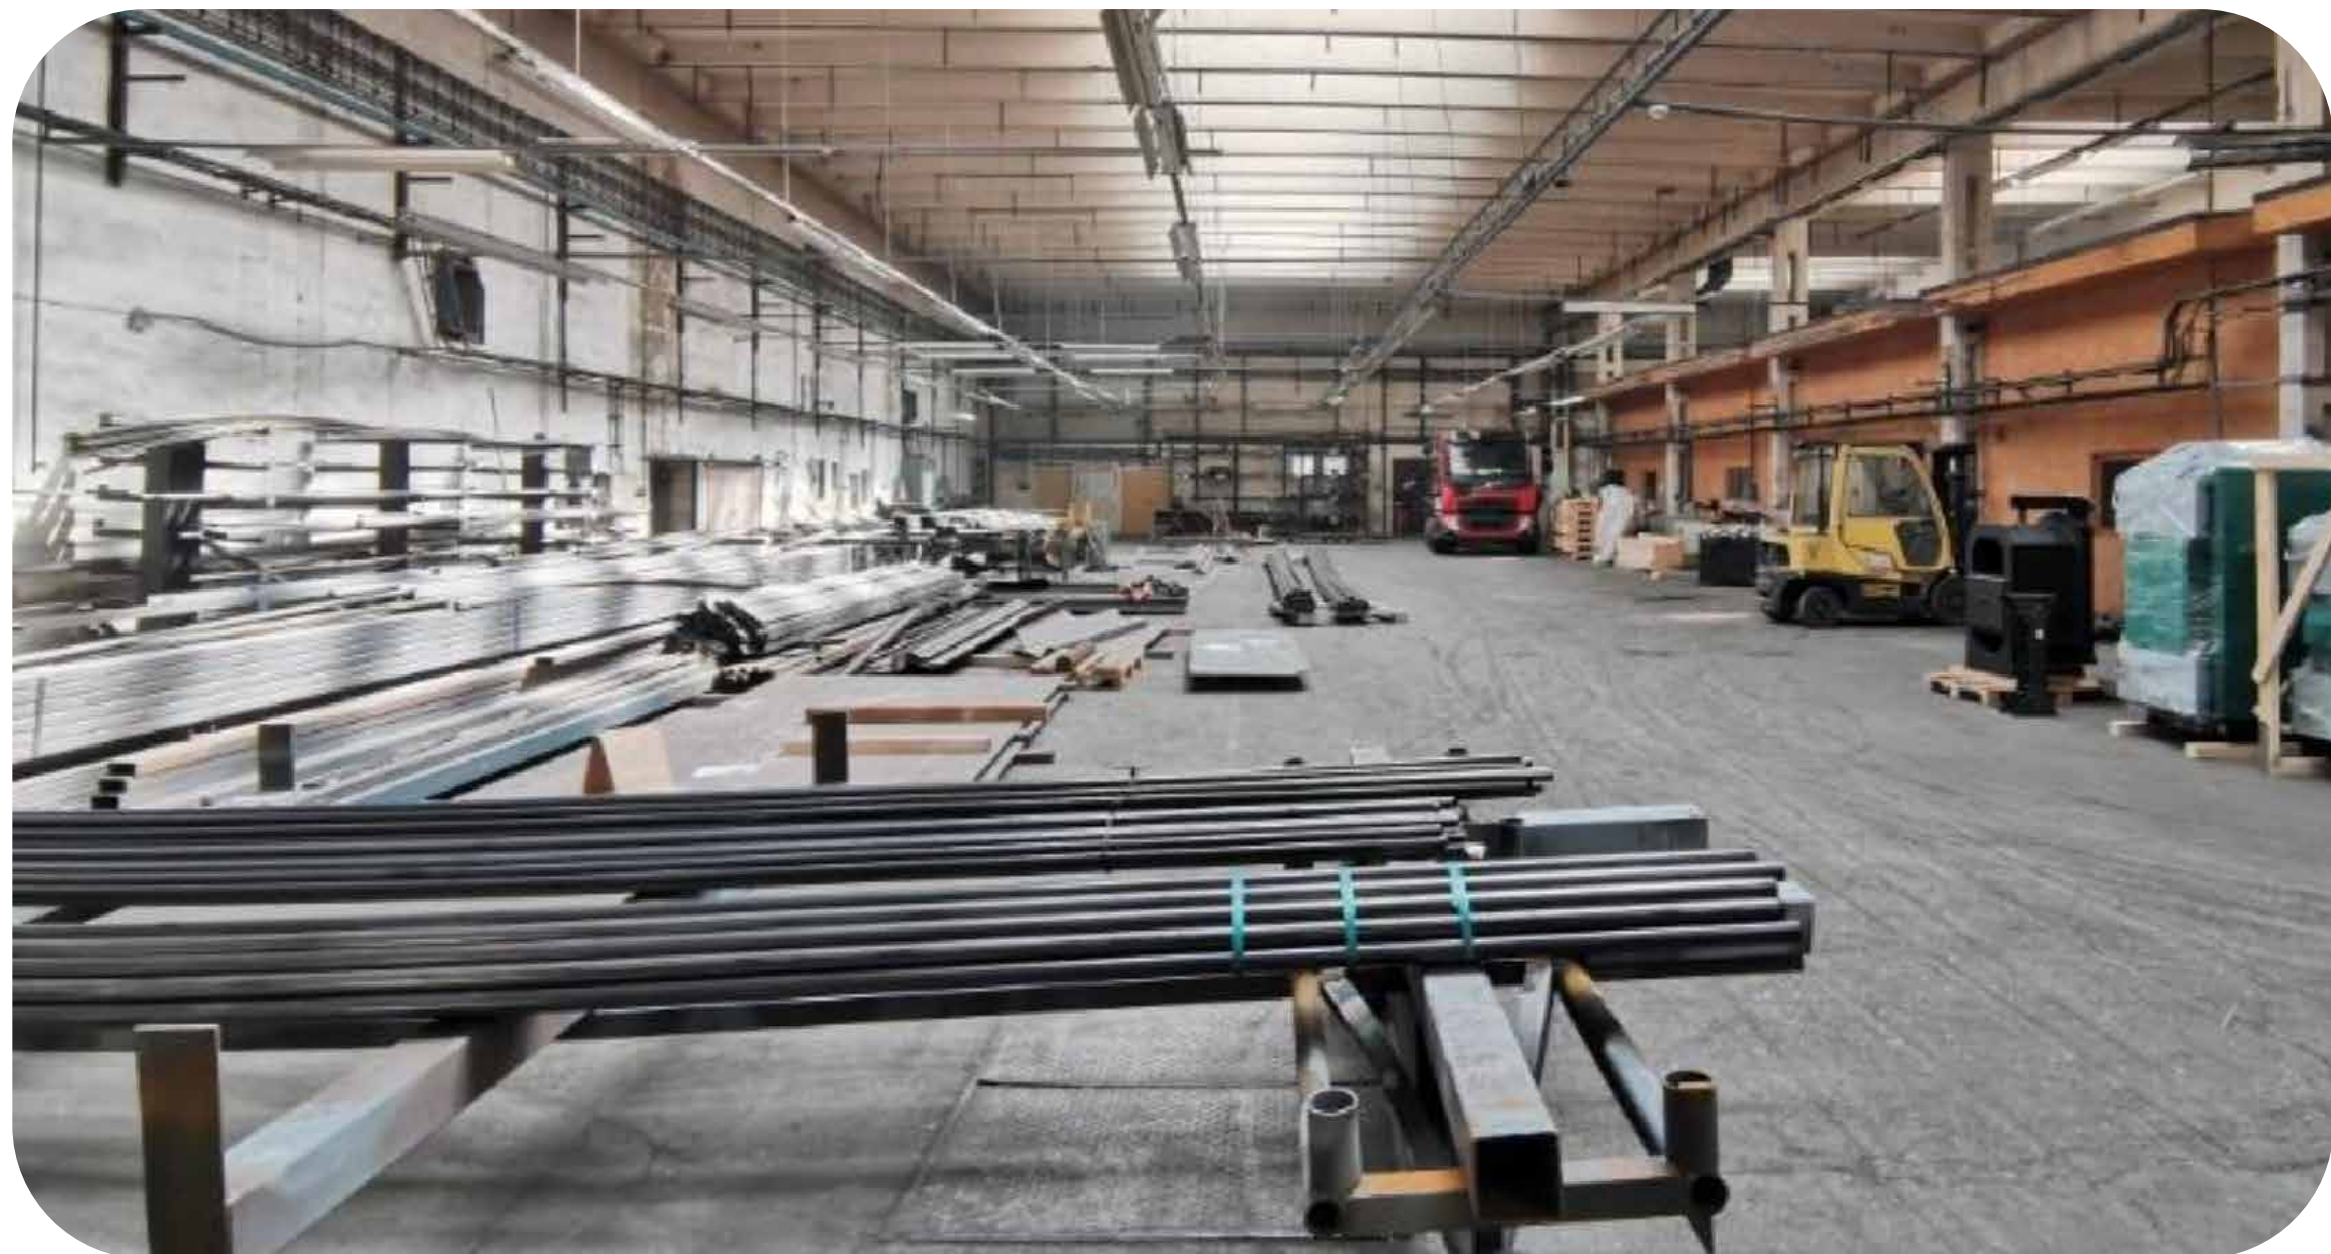

Combined boilers

Combination boilers use innovative design solutions for burning alternative fuels.

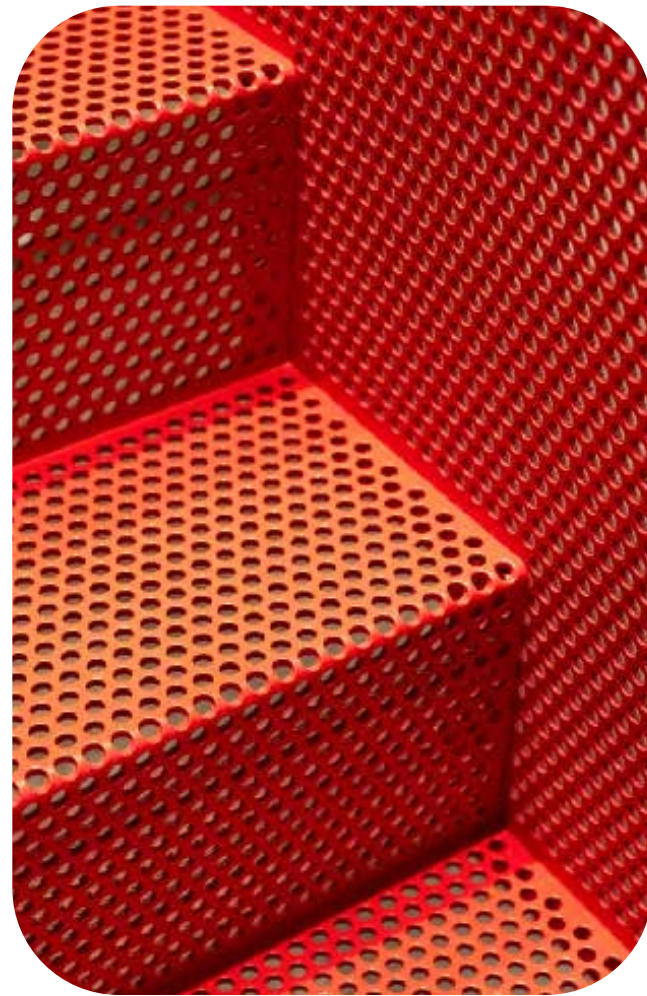

Constructions

In addition to producing boilers, the company also offers the production of structures for modular construction and other metalworking services (sheet metal cutting, CNC plasma cutting, sheet metal bending, CNC laser cutting).

AMADA AC2510 NT Punching Machine	2010
AMADA HFE M2 100.3 Press Brake	2010
WE67K – 125/3200 Press Brake	2007
QC12-6X3200 Hydraulic Shears	2007
VANAD Cutting Machine, Kompakt B&R 15/30,	2009
NUKON Laser Cutting Machine, ECO 1530 2kW	2016
ERMAKSAN Power Bend Pro 3100x320 Press Brake	2017
DURMA VS 3013 Hydraulic Shears	2017
CU 500M/1500 Chucking Lathe	2017
CANSA CNC42SR1 Pipe Bender	2017

1. Expanding our offering in the heating and renewable energy industry

- Advanced eco-friendly boilers

Low-temperature pellet and biomass boilers compliant with the latest EU standards.

Hybrid boilers (biomass + electricity + photovoltaics).

- Heat buffers and energy storage

Production of buffer and storage tanks for heating and renewable energy systems.

Integration with heat pumps and solar collectors.

- Customers: installation wholesalers, HVAC companies, construction developers, local governments.

2. Production for modular and industrial construction

- Steel structures and prefabricated components

Production of modular steel halls, warehouses, office and residential containers.

Frame elements for modular homes.

- Urban infrastructure

Bus shelters, benches, safety barriers, garbage cans, bicycle racks. Electric vehicle charging station housings.

- Customers: construction companies, local governments, public and private investors.

3. Production for electromobility and automotive

- Metal housings and structures for the EV industry

Production of electric vehicle charging cabinets and stations.

Housings for energy storage systems and photovoltaic transformers.

- Lightweight structures for commercial vehicles

Aluminum and steel housings for delivery vehicles.

Transport boxes for commercial and logistics vehicles.

- Customers: electric vehicle manufacturers, charging infrastructure providers, logistics industry.

4. Equipment for agriculture and forestry

- Metal agricultural structures

Silos for grain, feed, and fertilizers.

Structures for animal husbandry and vegetable storage facilities.

- Attachments for agricultural machinery

Plows, trailers, tractor mounting systems.

Chippers, saws, wood processing systems.

- Customers: farmers, forestry companies, agricultural machinery manufacturers.

5. Production for the medical and sanitary sectors

- Housings and structures for hospitals and laboratories

Steel structures for operating rooms, sterilization cabinets.

Modular medical containers for emergency stations and mobile clinics.

- Customers: hospitals, medical companies, humanitarian organizations.

6. Industrial equipment and logistics

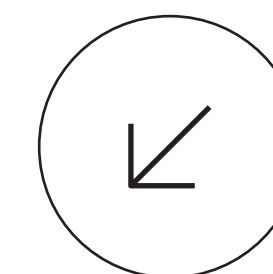

- Racking and storage systems

Production of high-bay metal racks.

Structures for logistics centers, wholesalers, and factories.

- Shipping containers and specialized crates

get in touch

We cordially invite you to review information about Cranp Kovo spol. s r.o. and to contact us directly for additional information. We are open to discussions with potential investors interested in acquiring the company.
